Quality Policy

Statement of Quality Policy

Galleon`s Mission Statement is: *Galleon Embedded Computing shall be an innovative leader in the development of high performance, high quality storage solutions, rugged data recording and computer systems for severe environments. Galleon shall also be a reliable partner throughout the lifetime of long-term programs.*

To assist in achieving this, Galleon has developed and implemented a Quality **Assurance** System that is structured to meet the requirements of EN 9100 and ISO 9001.

The objectives of the Quality Assurance System are:

- To achieve and maintain a level of quality which enhances the Company's **reputation**.
- To endeavor, at all times, to maximize **customer satisfaction** with the services provided by Galleon.
- A commitment to **continually review** and assess our products and services with the aim to improve the processes involved in the development of our world-class products.
- To ensure compliance with relevant statutory and safety requirements.
- To maintain an effective Quality Assurance System complying with AS/EN 9100 and ISO 9001

The Quality Management System, products and processes are reviewed regularly at Management Review Meetings in order to continually improve the Company's products and services.
